THIRD SANTORINI CONFERENCE

From Human Genetic Variations to Prediction of Risks and Responses to Drugs and the Environment

29 September - 2 October 2006

Nomikos Conference Center - Thira - Santorini- Greece

SESSIONS :

- From Computational Biology to Predictive and Personalized Medicine
- New tools for Genomics, Proteomics, Theranostics and Computation
- Metabolomics / Lipidomics
- Diabetes and Metabolic Syndrome
- Obesity and Nutrigenomics
- Cardiovascular Diseases and Genome Wide Studies of polymorphisms
- Cancer: From Genomics to Proteomics
- Cytomics in Theranostics
- Pharmacogenomics
- Pharmacoproteomics

LUNCH WORKSHOPS:

- Pharmacogenomics at the Crossroads: What else than good science will be needed for the field to become part of personalized medicine?
- Ethical Related Problems in Genetics
